

# Sprint Plan Document

CSCI-310 Software Engineering

Professor: **Nenad Medvidović**

TA: **Sarah Cooney**

Fall 2017

\$aNi£¥

Ba\$il (TEAM 15)

Tri Nguyen 1410884747

Ang Li 3340862395

Utsav Thapa 9717428024

Andre Takhmazyan 8764629970

Kevin Nguyen 215820474

## **1. Product Backlog:**

1. Improve the overall appearance of the app
2. Adding the category functionality (allowing multiple overall budgets)
3. Analytics line chart counting total spent instead of individual transactions
4. Analytics, be able to chose a specific time period and show analytics of that time period only
5. Reminders of specific events that are coming up
6. Allow notification settings to be changed

## **1. Sprint 1 Backlog:**

1. Improve the overall appearance of the app
2. Allow notification settings to be changed

## **2. Sprint 2 Backlog:**

1. Reminders of specific events that are coming up
2. Adding the category functionality (allowing multiple overall budgets)

## **3. Sprint 3 Backlog:**

1. Analytics line chart counting total spent instead of individual transactions
2. Analytics, be able to chose a specific time period and show analytics of that time period only
3. Search Transactions.
